Professional Summary

Software and data-focused developer with hands-on experience in Python, machine learning, HTML, CSS, and web application development REST API. Skilled in building end-to-end solutions and interactive dashboards using Flask, Streamlit, Power BI, and Plotly. Quick learner, proactive team player, and hackathon leader focused on delivering practical, high-quality software solutions.

Skills

Technical Skills: Python, MySQL, MongoDB, Java, C, Full Stack Web Development
Tools & Platforms: Power BI, Git, GitHub, Ms Office, AWS(Learning)
Soft Skills: Teamwork, Leadership, Problem-Solving, Collaboration, Communication

Experience

Data Analyst Intern- Modulation Digital Pvt. Ltd. May 2025 – July 2025

- Optimized SQL queries to extract, transform, and analyze data, improving data accuracy and performance for reporting.
- Performed data cleaning, pre-processing, and validation to ensure consistency and reliability across multiple datasets.
- Designed interactive Power BI dashboards to visualize key business metrics and trends for decision support.

Projects

Disaster management System Mar 2026
- Built a scalable full-stack disaster reporting platform enabling real-time incident tracking and geospatial visualization.
- MERN, Socket.io, Multer, REST APIs, Map Integration
- Implemented real-time notification system for instant disaster alerts using WebSocket.

Movie recommendation System Jan 2026
- Developed an end-to-end movie recommendation system using hybrid filtering techniques.
- Python, Scikit-learn, Pandas, Streamlit.
- Enhanced user engagement by delivering personalized movie recommendations based on viewing history and metadata.

Stock Sense AI Apr 2026
- Built an AI-based stock analysis dashboard using React and Flask.
- Implemented RSI and trend analysis to generate BUY/SELL decisions.
- Added real-time stock visualization using interactive charts.

Fake news Detection June 2025
- Built a fake news detection model using NLP and classification algorithms.
- Performed text cleaning and feature extraction.
- Enabled accurate classification of news articles for reliable information filtering.

Achievements and Co-Curricular

- Achieved a top 50 ranking among 400+ teams at the university-level SIH Hackathon as Team Leader.
- Secured a top 100 position among 2,000+ teams at the national-level Paranox 2.0 Hackathon.
- Active LeetCode Problem Solver.

Certifications

- Java- Apna College
- Oracle Academy Java Foundations Course- Oracle Academy
- Generative Ai for Beginner- Skill Up

Education

Sharda University |CGPA-8.3 Aug 2023-Present
BTECH CSE specialization in Data Science and Analytics.
GKP College, Samastipur 2021-2023
High School
