## Professional Summary

Software and data-focused developer with hands-on experience in Python, machine learning, HTML, CSS, and web application development REST API. Skilled in building end-to-end solutions and interactive dashboards using Flask, Streamlit, Power BI, and Plotly. Quick learner, proactive team player, and hackathon leader focused on delivering practical, high-quality software solutions.

## Skills

**Technical Skills**: Python, MySQL, Java, C, Web Development
**Tools & Platforms:** Power BI, Git, GitHub, Ms Office, AWS(Learning)
**Soft Skills:** Teamwork, Leadership, Problem-Solving, Collaboration, Communication

## Experience

**Data Analyst Intern-** Modulation Digital Pvt. Ltd. May 2025 – July 2025

- Optimized SQL queries to extract, transform, and analyze data, improving data accuracy and performance for reporting.
- Performed data cleaning, pre-processing, and validation to ensure consistency and reliability across multiple datasets.
- Designed interactive Power BI dashboards to visualize key business metrics and trends for decision support.

## Projects

**Movie Recommendation System** Jan 2026
- Developed an end-to-end movie recommendation system using hybrid filtering techniques.
- Python, Scikit-learn, Pandas, Streamlit.
- Enhanced user engagement by delivering personalized movie recommendations based on viewing history and metadata.

**Stock price prediction** Aug 2025
- Built an ML-based tool to predict stock prices using historical data and advanced regression models.
- Python, Scikit-learn, LSTM, Plotly
- Enabled investors to visualize actual vs predicted trends through interactive dashboards for better decision-making.

**OCR to extract Text** Oct 2025
- Built an OCR system to extract and digitize text from scanned documents and images.
- Python, OpenCV, Tesseract OCR, Flask
- Enabled automated text recognition for faster data processing and reduced manual entry errors.

**Sales Dashboard** June 2025
- Power BI, Data Cleaning, DAX
- Focused on visualizing KPIs, revenue trends, and product performance for data-driven decision-making.
- Implemented dynamic filters and drill-down features to allow detailed insights by region, product, and time period.

## Achievements and Co-Curricular

- Achieved a top 50 ranking among 400+ teams at the university-level SIH Hackathon as Team Leader.
- Secured a top 100 position among 2,000+ teams at the national-level Paranox 2.0 Hackathon.
- Active LeetCode Problem Solver.

## Certifications

- Java- Apna College
- Oracle Academy Java Foundations Course- Oracle Academy
- Generative Ai For Beginner- Skill Up

## Education

**Sharda University |CGPA-8.3** Aug 2023-Present
BTECH CSE specialization in Data Science and Analytics.
**GKP College, Samastipur** 2021-2023
High School
